K1A 0A6

To the Honourable Geoff Regan:

The Musquash Estuary is a jewel along the Bay of Fundy coastline, the only major estuary that has not been significantly damaged by development or pollution. Three years ago, your predecessor Hon. Herb Dhaliwal, declared Musquash an Area of Interest for DFO's MPA program. Now is the time to give Musquash its full designation as marine protected area under Canada's Oceans Act. There is widespread support for protecting this coastal treasure in perpetuity. Please make sure this protection comes in 2004.
